## ATORIERA HARE HOE.

SAINT LOUIS, April 6th, 1877.

Mo DEndelman

We beg to advise our friends in Stoddard Addition that we are delivering in that part of the city

## PURE NORTHERN LAKE ICE.

The advantage of using **THIS** ice in preference to that cut in front of this city will be apparent when we suggest that it is hardly possible for the latter to be free from the impurities flowing into the river from the public and private sewers of the city, and the drainage of Lowell.

Our deliveries of Ice to the family trade for this season is confined chiefly to Stoddard Addition. Where we know that a clean and healthy Ice gathered from the purest Northern Lakes will be appreciated, our price will be as low as any furnishing this quality of ice.

Enclosed we hand you postal card, which we respectfully solicit you to fill out and drop in Postoffice or box, with the assurance that your order shall receive prompt and faithful attention. Very respectfully,

B. R. BONNER & CO.,

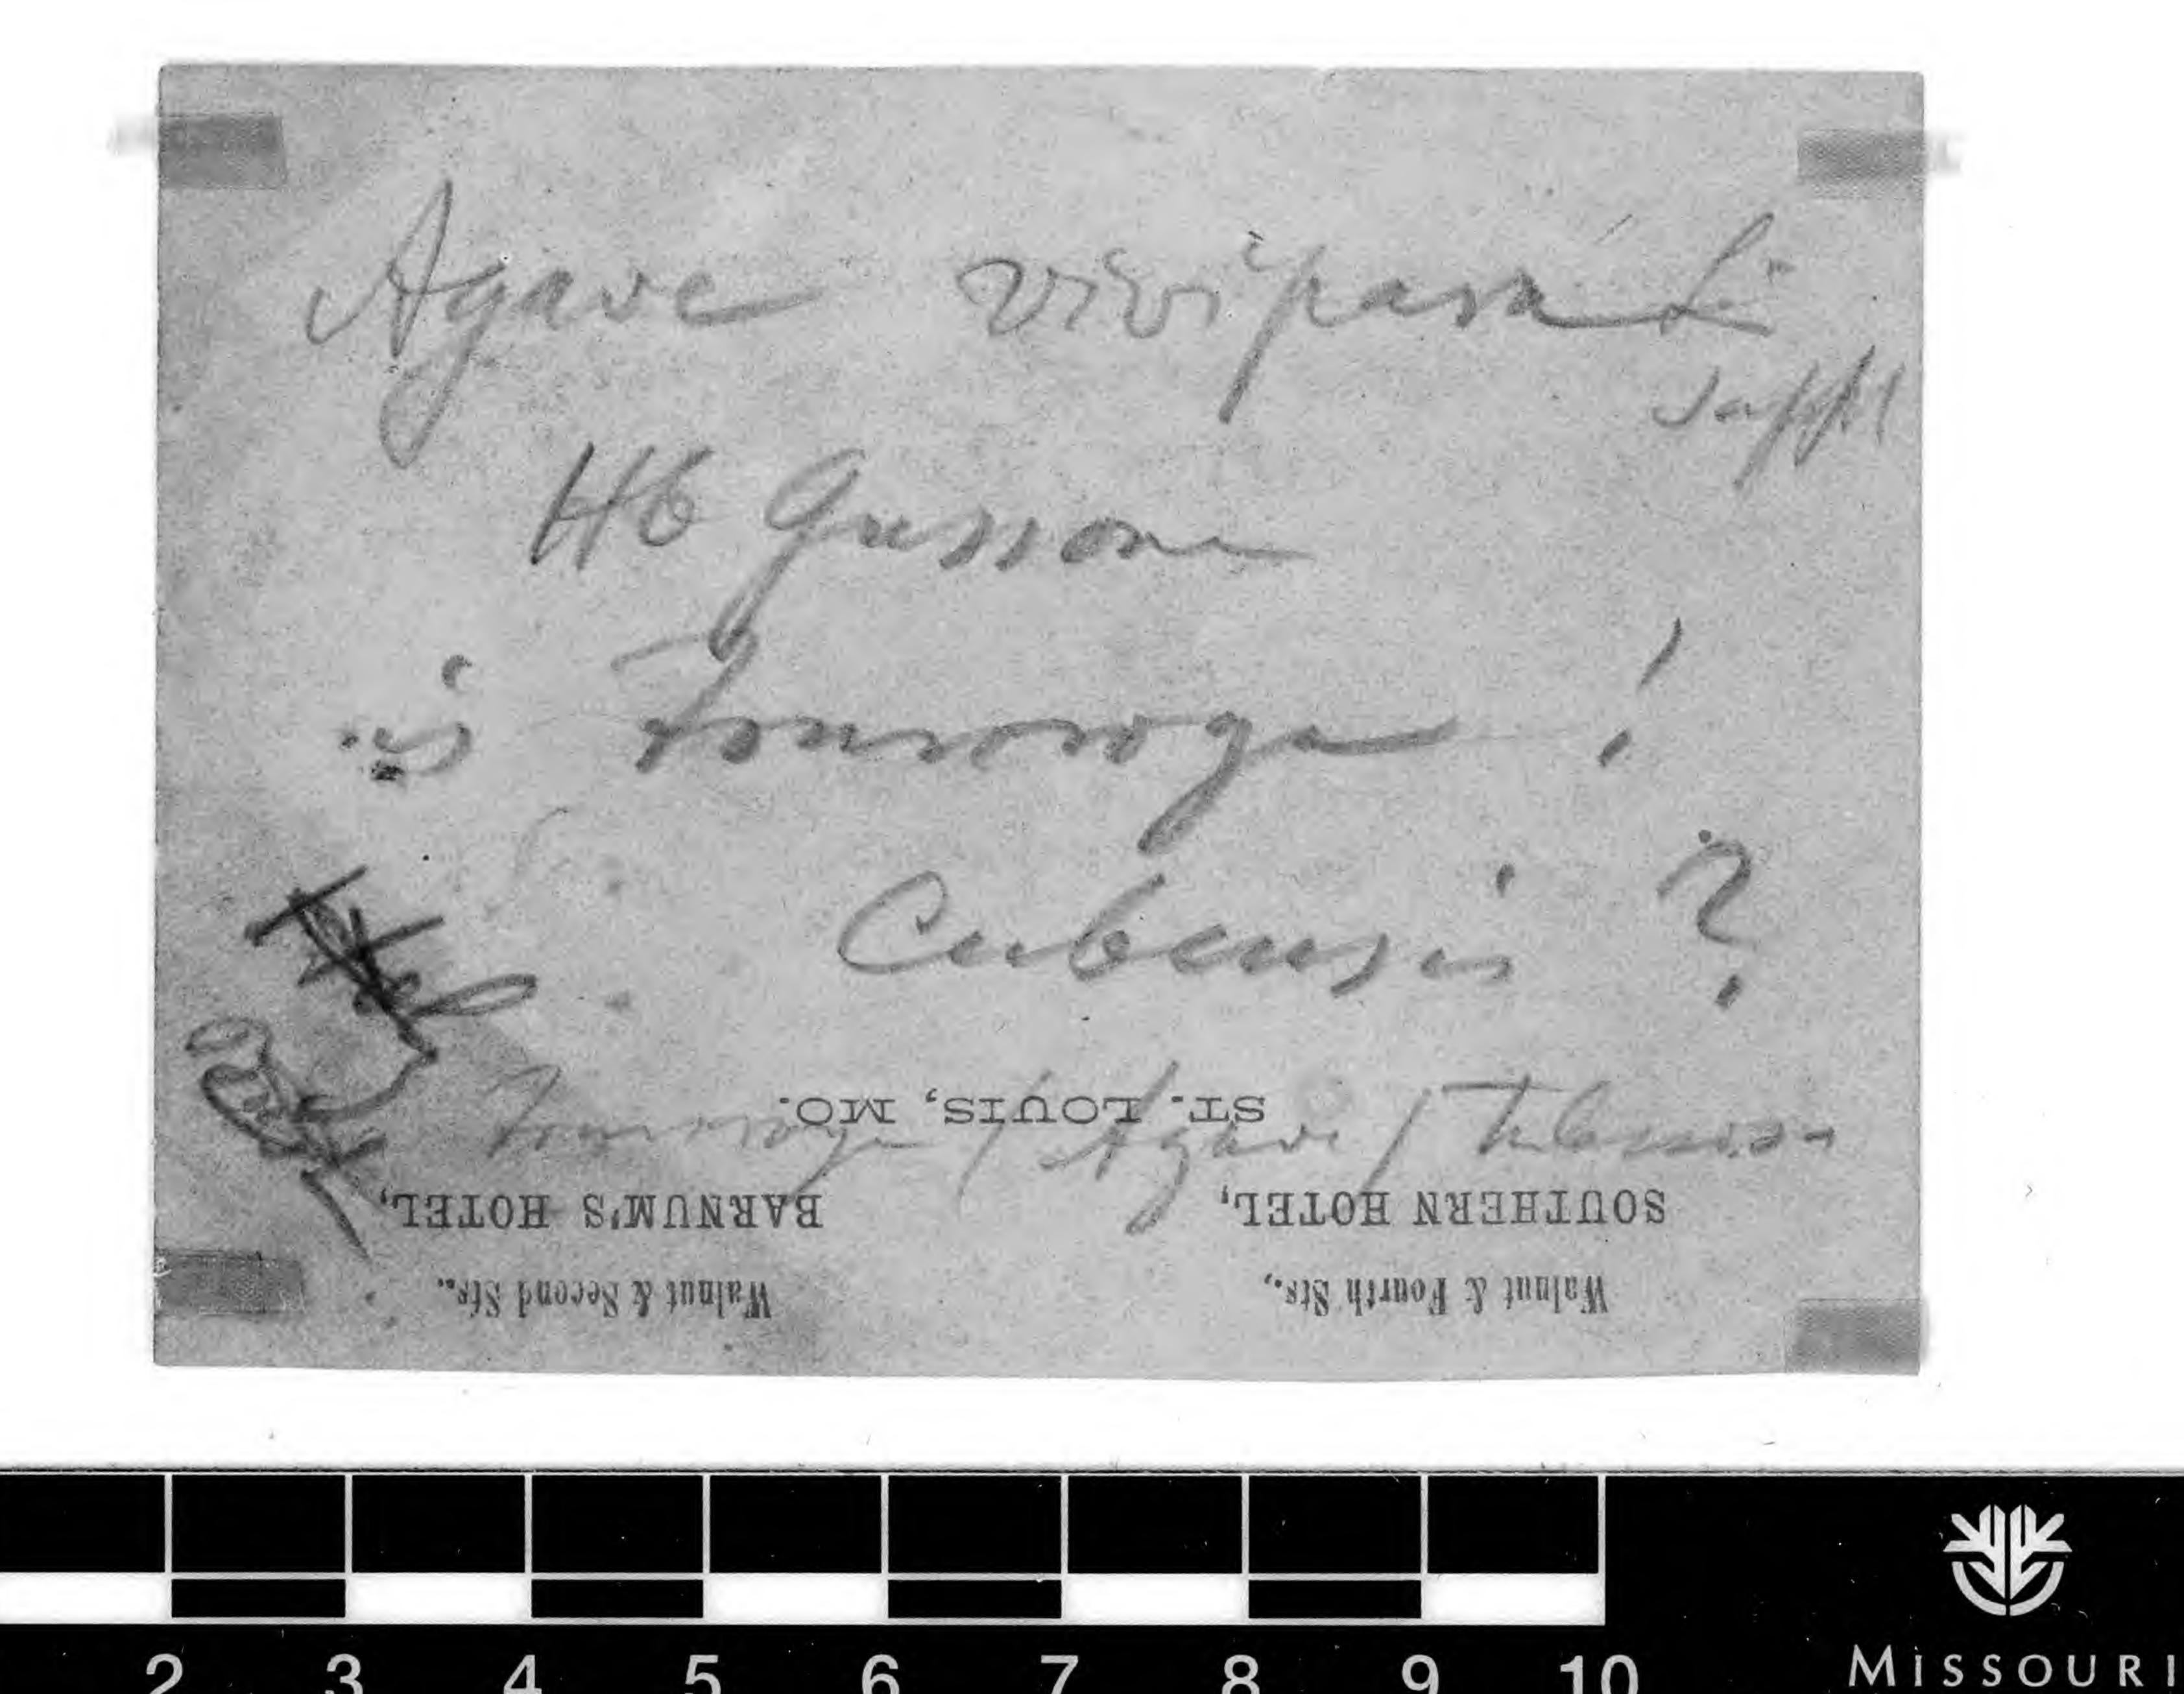

Dealers in Pure Northern Lake Ice, 1200 Washington Avenue.

## PALETTE SCRAPINGS,

AN ILLUSTRATED QUARTERLY,

PUBLISHED BY THE

Students of the St. Louis School of Fine Arts.

\$1.00 A YEAR.

30 CENTS A COPY.

Attention is called to the following comments on the last number of Palette Scrapings:—

[From the Globe-Democrat, March 11th.]

The February number of Palette Scrapings, a magazine written and illustrated by the students of the Art School, is just at hand. It is the best number of this admirable little magazine that has yet been issued, both in letter-press and illustrations, and all interested in knowing how the students progress, ought to subscribe for it. They will get full money's worth.

[From the Republican, March 11th.]

PALETTE SCRAPINGS is a pretty publication by the St. Louis School of Fine Arts. No. 2 of the second volume has come to hand well filled—sketches on art topics and embellishments of art bits. It is all the work of the students of the St. Louis School of Fine Arts, and its bright pages are welcomed four times a year by a large circle of readers interested in fine arts.

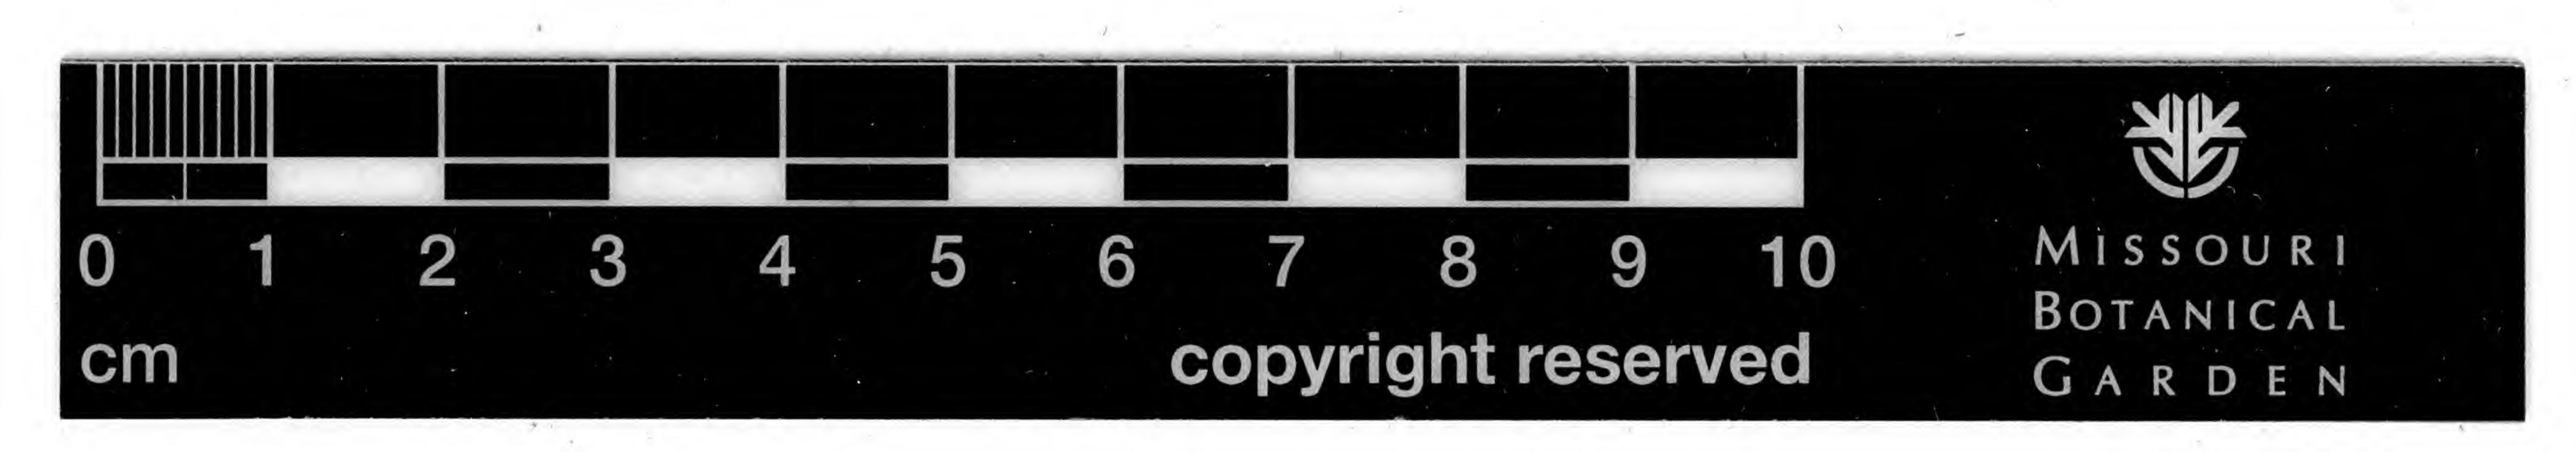

[From the Post-Dispatch, March 5th.]

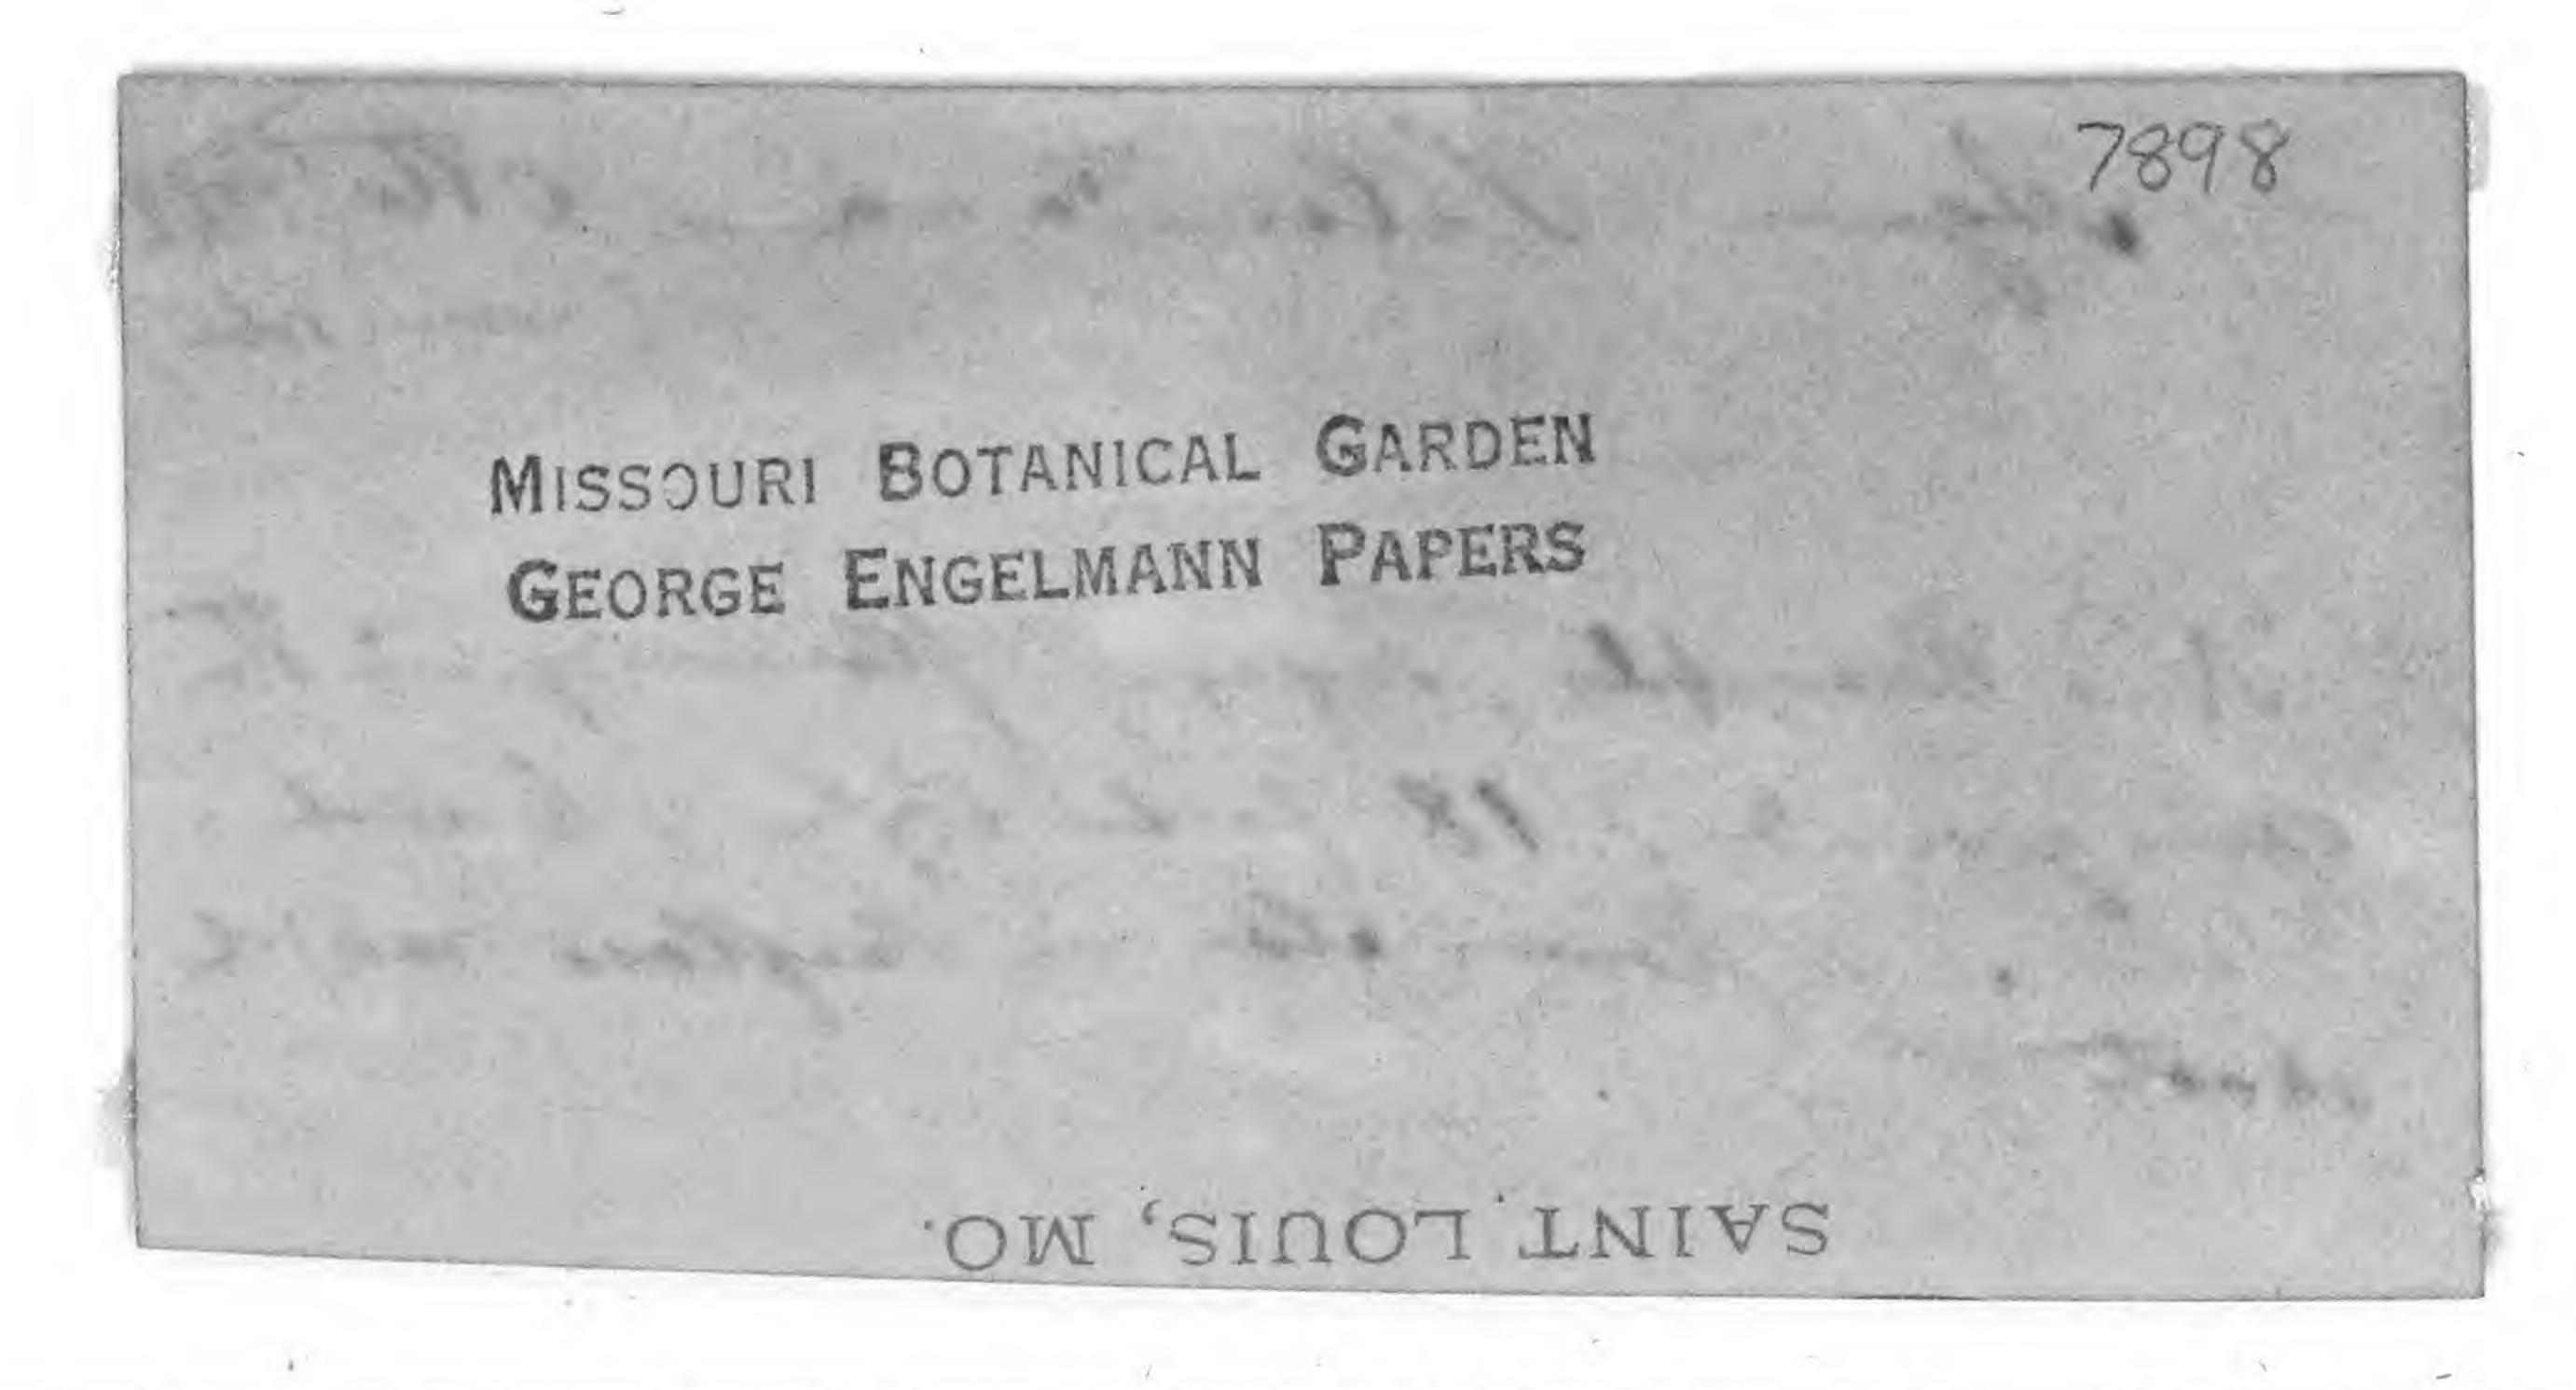

The February number of Palette Scrapings, lately issued, is a credit to all connected with it. Palette Scrapings is a quarterly illustrated journal, published by the students of the Art School, at Washington University. All the work, including sketching, engraving and writing are done by the students of the School. \* \* \* The price of the journal is only \$1.00 per year, and its genuine merit ought to secure for it a wide circulation.

[From The Spectator, March 7th.]

The last number of Palette Scrapings is the best yet issued. The drawings are highly creditable. \* \* \* The entire number, both artistic and literary, will compare favorably with more pretentious publications.
